

Marquee Safety

Safety First

- 1) Your marquee will be safely secured to the ground & will be perfectly stable, safe, and water tight (as far as humanly possible).
- 2) Although fire resistant material has been used in the manufacture of the marquee & it complies with all UK safety standards, care should still be taken to avoid contact with either heat or flames. This applies to all items on hire from Garden Party Hire
- 3) Never allow children or animals into the marquee without adult supervision. Whilst the marquee may look like an inviting play area, there are many electrical & heating appliances etc, which are not toys & could cause harm.
- 4) Every care has been taken to ensure that the marquee & all equipment provided are safe. Instructions & demonstrations on how to operate such equipment will be provided prior to the handover of the running of the marquee to the hirer. Please ensure that all instructions are followed, as the hirer is responsible for all damage however so caused. If in doubt please ask?
- 5) If heating has been supplied please be aware that the hirer should ensure adequate ventilation at all times when any such heating appliances are in use. Fire exits should not be blocked or obstructed.
- 6) Any electrical appliances supplied have been installed in a safe manner. The current & voltage supply has been calculated & checked by a third party to ensure that sockets are not overloaded & are safe. Under absolutely **no** circumstances should the hirer alter, make any additions to, or tamper with in anyway the electric's supplied or at the supplying sockets, nor should they allow any other persons to do so. The hirer should follow the instructions given for the safe use of all equipment.

Important: Should anything go wrong with any equipment on hire, please do all you can to isolate the problem in a safe manner, shut off any gas or electrical supply to the problem area, and telephone Garden Party Hire's 24hr helpline for further advice & assistance. In extreme events please telephone the emergency services & then Garden Party Hire, but above all ensure your own & others safety at all times.

End of Hire

- 1) Everyone enjoys a good safe event, very few enjoy the big clear up after. Garden Party Hire aim to minimize the hassle of this, but clearance of refuse is additional work that we are not contracted to do. Could you please ensure that the marquee is left clear of any debris as a cleaning charge may be applied?
- 2) Could you please ensure that the marquee has good safe access for dismantling & that all items are left in the same good condition that they were hired out to you? The Hirer is responsible for all damages/breakages
- 3) Provision of vehicle access to facilitate collection is something that most clients overlook; please try to ensure that if vehicles are left on your driveway overnight that you have the keys to them in case they need to be moved to allow us access? Please be mindful that we may have multiple events to collect on the same day, any delays will create additional costs for us that we regrettably have to pass on to the clients responsible for such delays.

Security

- 1) You are responsible for the safety & security of all items hired to you during the period of hire. Please ensure that when not in use that the marquee doors are suitably closed & secure and that all gas & electrical supplies are switched off. If you are unsure of the safety & security of any items please alert Garden Party Hire of these concerns as soon as they arise.

**In the event of any problems,
please telephone 0115 8495686 immediately.
(calls to this number may divert, please wait for a ringtone)**

**Do not attempt to alter either positioning or settings of anything on hire
(it may have been set/positioned for safety!)**

**Warning
Lack of ventilation can cause Carbon Monoxide Poisoning.
Carbon Monoxide can KILL!**
